## Descripción

The Vibia Palma 3720 pendant lamp consists of a diffuser of two hemispheres. The two halves of the diffuser are held together by an aluminum ring. The pendant lamp emits glare-free ambient light and is available in graphite-grey for the aluminum ring and canopy. The cables of the lamp can be shortened if required. A special cable length is also available on request. The integrated LEDs can be dimmed on site with 1-10 volt or Push and are supplied as standard with a colour temperature of 2,700 Kelvin extra warm white. On request, there is also available a DALI dimmable version or a version that is dimmable via smartphone with an optionally available Casambi module. The lamp with Casambi module can be operated via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the light on at specific times via a timer. Versions with a colour temperature of 3,000 Kelvin warm white or 4,000 Kelvin white are also available on request.
