

Arturo_Alvarez

Aimei

Technical details

País de origen	 España
Fabricante	Arturo_Alvarez
Diseñador	Arturo Alvarez
año	2019
Índice de protección / Protección IP	IP20
Contenido del paquete material	LED
Color del cable	acero, madera, vidrio
Ajuste de altura	transparente
Atenuación	altura determinada
Potencia en vatios	Regulable en el sitio con control de fase inversa
LED	8 W
El flujo luminoso en lm	incluyendo
Temperatura de color en grados Kelvin	960
Dimensiones del dosel	2.700 extra blanco cálido
altura total	12 cm
Dimensions	200 cm
	H 80 cm B 80 cm L 80 cm

Descripción

The Arturo Alvarez Aimei pendant lamp is made of ash wood. Ash wood is a particularly flexible and versatile material. By means of handcrafted processes, curved and durable surfaces can be produced using this resistant and high-quality material. A spherical glass diffuser reduces glare and spreads the emitted light homogeneously through the spaces between the wooden rods into the room. The lamp is a total of 80 cm high. It has a length and a width of 80 cm each. The pendant lamp is attached to a transparent cable. The nickel-plated steel canopy has a diameter of 12 cm. Including the suspension, the lamp has a total height of 200 cm, the cable can be shortened if required. The light source integrated in the Aimei is an LED with a colour temperature of 2,700 Kelvin extra warm white, which can be dimmed on site with a trailing edge phase dimmer. The pendant lamp is also available on request with a colour temperature of 3,000 Kelvin warm white. A DALI dimmable version is also available on request.
