<b>protección</b>	IP20
<b>Volumen de suministro</b>	Leuchtmittel/Bulb
<b>material</b>	crista vidriol, metal
<b>base/portaámparas</b>	G9
<b>conmutabilidad</b>	en la delantera
<b>Alimentación (máx. Watt)</b>	60 Watt
<b>Diamètre de l'ombre</b>	16 cm
<b>Dimensions</b>	H 19 cm

## Descripción

The Vistosi Bolle LT P is a table lamp with a lamp shade made of mouth-blown crystal glass. The glass is processed using the Balaton technique, in which air bubbles are enclosed into the glass. This creates a special texture which multiplies the reflections on the surface of the glass. In addition, a halo effect appears on the table on which the lamp stands. The lamp shade is available in crystal transparent and white surfaces. The lamp base is made of satin nickel-plated metal. Altogether the Bolle LT P is 19 cm high and has a lamp shade with a diameter of 16 cm. An on/off switch is integrated on the supply line. The table lamp can be operated with halogen lamps or LED retrofits.
