| Dimensions | H 8 cm Ø 12 cm |

Descripción

The Vistosi Damasco SP C is a pendant lamp with a diffuser made of mouth-blown crystal glass. During production, the glass diffuser is wrapped with threads of molten crystal glass in order to obtain a special organic structure. The light is emitted both into the room and downwards at the same time. Damasco SP C is available in the glass diffuser colours crystal clear and amber. The pendant lamp has a diameter of 12 cm and is 8 cm high. It is available as G9 and LED version. The LED lamp has an integrated LED with a colour temperature of 2,700 Kelvin extra warm white and is dimmable with a trailing edge phase dimmer. On request, it is also available with a colour temperature of 3,000 Kelvin warm white or 0-10 Volt dimmable. Its cable with a maximum length of 200 cm can be shortened if necessary. With the supplied ceiling hook, the pendant light can also be mounted independently of the power outlet.
