Wittenberg 4.0 ceiling lamp semi-flush LED

Oberfläche

- negro
- blanco

Technical details

País de origen	 Alemania
Fabricante	Mawa
Diseñador	Jan Dinnebier
Diseñador 2	mawa engineering
Índice de protección / Protección IP	IP20
Contenido del paquete material	LED
angulo del rayo	aluminio, metal
Atenuación	38 grados
Potencia en vatios	dimmable con control de fase inversa y con reguladores de control de fase
LED	12,7 W
Índice de reproducción cromática	incluyendo
El flujo luminoso en lm	95
Temperatura de color en grados Kelvin	1.100
cabeza del alumbrado masa	2.700 extra blanco cálido
reemplazo de la bombilla:	8 cm
distribución de la luz	en el sitio mismo
Dimensions	directamente
	H 9 cm B 10 cm L 10 cm

Descripción

The Mawa Wittenberg 4.0 ceiling lamp semi-flush LED has an adjustable spotlight head. This lamp head is integrated semi-flush into the rectangular ceiling housing. It can be rotated 365 degrees and swivelled 90 degrees. The large light-emitting surface of the spotlight head is well glare-free. Neither screws nor cables are visible in the compact design of the lamp. This ceiling light is available with powder-coated white matt or black matt surfaces. On request, the lamp is also offered on request with a black ceiling housing and a lamp head in chrome, brass or copper.

The integrated LED has a colour temperature of 2,700 Kelvin extra warm white, on request it is also available with 3,000 Kelvin warm white or 4,000 Kelvin white. The Wittenberg 4.0 ceiling lamp semi-flush LED can be dimmed on site with a leading or trailing edge phase dimmer, on request it is also offered as a DALI dimmable version.

The radiator has a beam angle of 38 degrees. The beam angle determines the angle at which the light from an LED spotlight is emitted. With a larger beam angle, the light is distributed over a larger area. Optionally, the lamp can also be ordered with a beam angle of 12 or 24 degrees in the field Order Comment.
