Descripción

The Cini & Nils Acqua Filo 2 lamps consists of two Acqua lamps that are plugged together and suspended from the ceiling by a cable. The pendant lamp has a counterweight and no power connection to the ceiling. The power is supplied via a supply line with plug. The switch is integrated on the supply line. The pendant light is available in white, gold matt, silver matt, silver leaf finishes. On request, it is also offered in gold leaf. The counterweight and the ceiling mounting have the same surface finish as the lamp. The Acqua Filo is available in two versions. As an uplight, the lamp emits indirect, reflective light and as a downlight, direct light. In addition to this pendant light with two lamps, the series also includes versions consisting of one lamp or three lamps.
