Descripción

Inside the Serien Lighting Reflex2 Ceiling S600 is a prismatic reflector onto which the light is directed. From there, the light is emitted into the room absolutely glare-free. The reflector is available in matt white, gold, silver or white. Depending on the reflector colour, a different lighting effect is created.

The Reflex2 Ceiling S600 has the dim to warm function, which imitates the pleasant dimming behaviour of classic incandescent lamps. When dimmed down, the light not only becomes darker, but also changes its colour temperature from 2,200 Kelvin extra warm white to 3,000 Kelvin warm white. On request, the ceiling lamp is also available with 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. On request, the lamp is also offered dimmable with DALI, 1-10 volt or Casambi module.
