

Knapstein

LINDA-132

Oberfläche

- níquel
- negro
- bronce

Technical details

País de origen	 Alemania
Fabricante	Knapstein
Diseñador	Knapstein
año	2020
Índice de protección / Protección IP	IP20
Contenido del paquete	LED
material	latón
Ajuste de altura	altura ajustable
Atenuación	control por movimientos
Potencia en vatios	62 W
LED	incluyendo
Índice de reproducción cromática	>90
El flujo luminoso en lm	7.440
Temperatura de color en grados Kelvin	2200 - 3000 ajustable
reemplazo de la bombilla:	en el fabricante / en la fabrica
altura total	73 - 180 cm
Dimensions	H 3,4 cm B 1,6 cm L 132 cm

Descripción

The Knapstein LINDA-132 is a pendant lamp with a length of 132 cm. Its total height can be adjusted between 73 cm and 180 cm at any time by pulling or lifting the lamp itself. The lamp can also be suspended at an angle. This pendant lamp radiates its light both upwards and downwards. The uplight and downlight can be switched separately by gesture control and also infinitely dimmed. In addition, the light colour can be adjusted to a warmer tone (from colour temperature 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved via the memory function and are automatically reset the next time the light is switched on. The sensor area for gesture control is located centrally on the lamp.

The lamp is switched on and off by a wiping hand movement in the sensor area. If the hand is held longer in the sensor area, the light intensity can be varied. By holding the hand in the sensor area again for a longer period of time, the desired light colour can also be set. The LINDA-132 is available in matt nickel, black or bronze effect. The series also includes the LINDA with a length of 92 cm, 112 cm and 152 cm. On request, the LINDA is also available in other lengths or surfaces.
