

Knapstein

NORA

Oberfläche

- níquel
- bronce

Technical details

País de origen	 Alemania
Fabricante	Knapstein
Diseñador	Knapstein
año	2020
Índice de protección / Protección IP	IP20
Contenido del paquete	LED
material	latón
Atenuación	control por movimientos
Indice de reproduccion cromatica	>90
Temperatura de color en grados Kelvin	2200 - 3000 ajustable
Dimensiones del soporte de la lámpara	27 cm
El rendimiento del sistema	2 x 36 Watt
Flujo total luminoso en lm	8.580
Dimensions	H 160 cm

Descripción

The Knapstein NORA floor lamp has a rotating and swivelling light rod, which can be repositioned again and again via a ball joint on the lamp base. The lamp emits light both directly to the front and indirectly, e.g. to the wall. The two light sources can be switched separately and infinitely dimmed by gesture control. It is also possible to use gesture control to adjust the light colour for both light sources separately to produce a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved by the memory function and are automatically adjusted again the next time the light source is switched on. The NORA from Knapstein has a height of 160 cm and is operated with two LEDs. The floor lamp is available with matt nickel and bronze effect surfaces.
