

Loom Design

Una

Technical details

País de origen	 Dinamarca
Fabricante	Loom Design
Índice de protección / Protección IP	IP54
Contenido del paquete	LED
Profundidad en cm	10
material	aluminio, policarbonato, vidrio de seguridad
ángulo del rayo	0 - 100 grados
Potencia en vatios	9 W
LED	incluyendo
El flujo luminoso en lm	375
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
Dimensions	H 15 cm B 14 cm

Descripción

The Loom Design Una emits light simultaneously to the front, below and above. At the top and at the bottom, the outdoor wall lamp has rotatable covers with which the beam angle of the light can be adjusted between 0 and 100 degrees for both directions. This allows differently shaped light cones to be emitted onto the wall at the top and bottom. With an opal diffuser made of polycarbonate, the light emitted to the front is glare-free. The lamp is made of black die-cast aluminum. It has a width of 14 cm and a height of 14.5 cm. The depth is 10.4 cm.

An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as illuminant. The clear safety glass in front of the LED is particularly shock and impact resistant and insensitive to temperature differences. With the IP54 protection rating, the Una by Loom Design is well suited as an outdoor lamp, as it is protected against dust and splashing water on all sides.
