

# Bopp

## At Ceiling Lamp 45

### Oberfläche

- aluminio
- blanco

### Dimmbarkeit

- dimmable con control de fase inversa y con reguladores de control de fase
- con módulo Casambi
- con módulo ZigBee

## Technical details

<b>País de origen</b>	 Alemania
<b>Fabricante</b>	Bopp
<b>Índice de protección / Protección IP</b>	IP20
<b>Contenido del paquete</b>	LED
<b>Diámetro en cm</b>	45
<b>material</b>	aluminio
<b>Potencia en vatios</b>	22 W
<b>LED</b>	incluyendo
<b>Indice de reproduccion cromatica</b>	90
<b>El flujo luminoso en lm</b>	3.050
<b>Temperatura de color en grados Kelvin</b>	2.700 extra blanco cálido
<b>Dimensions</b>	H 15 cm   Ø 45 cm

## Descripción

The Bopp At is a spirally curved ceiling light with an integrated LED. The LED runs completely around the inside of the curved lamp. This illuminates the lamp itself and at the same time emits a light effect onto the ceiling. The integrated LED with a power of 22 watts has a colour temperature of 2,700 Kelvin extra warm white. This LED ceiling light made of aluminium has a diameter of 45 cm and is 15 cm high. The round ceiling mount of the Bopp At has the same surface as the lamp. The ceiling mount has a diameter of 20.6 cm and is 4 cm high. The At ceiling light by the German manufacturer Bopp is available in the surfaces polished aluminium and white. The lamp is available in three versions: dimmable via the existing household electrical system with a trailing edge and / or leading edge phase dimmer (not included in the scope of delivery), with Casambi module or with ZigBee module. With a Casambi module, it is possible to operate the ceiling light via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the lamp on at specific times via a timer. ZigBee enables wireless communication via WLAN between a Smart Media device and existing home technology. Using ZigBee, lamps, electric shutters, heating and loudspeakers, among other things, can be controlled via voice control.
