- blanco

Version

- con módulo Casambi
- dimmable con control de fase inversa y con reguladores de control de fase
- con módulo ZigBee

Technical details

País de origen	 Alemania
Fabricante	Escale
Diseñador	Peter Kraus
año	2020
Índice de protección / Protección IP	IP20
Contenido del paquete	LED
Profundidad en cm	4
Diámetro en cm	59
material	aluminio
Potencia en vatios	50 W
LED	incluyendo
Índice de reproducción cromática	>90
El flujo luminoso en lm	6.700
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
reemplazo de la bombilla:	en el fabricante / en la fabrica
Dimensions	Ø 59 cm

Descripción

The Escale Blade Open 59 cm is a wall and ceiling lamp with an opening inside. This opening is arranged asymmetrically in the lamp. The light of the lamp is emitted indirectly to the wall or ceiling and reflected from this, so that a light effect is created inside and around the lamp. This lamp has a diameter of 59 cm and a depth of 3.5 cm. It is available in the following surfaces: white matt, black matt, silver matt anodised, concrete look, gold leaf, taupe anodised and anthracite. The integrated LED has a colour temperature of 2,700 Kelvin extra warm white. In addition to the Blade Open with opening, the closed Blade lamp is also available.

The Blade Open 59 cm is offered in three versions: dimmable on site with trailing and leading edge phase dimmer, with Casambi module as well as with ZigBee module. The version with Casambi module is dimmed with the Casambi app using a smartphone / tablet via Bluetooth. The version with ZigBee module can be regulated via voice control.

A connection set is offered as an accessory with which two Blade Open or Blade lamps can be connected to a single power connection. With several connection sets, a large lamp can be formed from several individual lamps. The Blade Open can be combined with the Blade. For example, a smaller Blade lamp can be mounted in the opening of a larger Blade Open lamp. A plug-and-play cable with toggle switch is also available as an accessory, with which a Blade Open lamp can also be connected directly to a power supply.
