### Descripción

The Licht im Raum Ocular 4 LED Series 100 is 146 cm long and 23 cm wide. When mounted, the pendant lamp can be individually set in total height. Its four lenses focus and control the light in a precise, glare-free manner, creating a superior quality of light. The light is focused by the lenses and distributed homogeneously downwards. In addition, an LED emits light upwards.

The Ocular 4 LED Series 100 is available in brushed stainless steel, hand-polished stainless steel, matt black, white, natural brass and black / gold finishes. It is operated with five long-life, extra warm white LEDs. The pendant lamp can be regulated via a rotary dimmer integrated in the lamp.
