Descripción

The Licht im Raum Ocular 8 LED is a pendant lamp with a length of 270 cm and a width of 14 cm. The pendant lamp can be individually suspended in total height during installation. The lamp has eight lenses with a diameter of 67 mm each, which can be swivelled. The Ocular lenses focus and control the light in a precise, glare-free manner, creating a superior quality of light. Eight long-life LEDs emit light downwards through the lenses in a focused and homogeneous manner. At the same time, light is also distributed upwards.

The Ocular 8 LED is available in the surfaces brushed stainless steel, hand-polished stainless steel, matt black, white, natural brass and black / gold. The pendant lamp can be regulated via a rotary dimmer integrated in the lamp.
