Descripción

The Arturo Alvarez Cabana CB04G pendant lamp has a lamp shade made of aluminum. The shade is made with the 3D knitting process. This technique is widely used in the textile industry, but has rarely been used in the lighting industry. With this process, it is possible to produce seamless lamp shades in three dimensions without excess fabric.

The Cabana CB04G distributes a particularly pleasant, homogeneous light. The pendant lamp has a diameter of 90 cm and is 80 cm high. The lamp shade is offered in the colours beige, orange and blue electric. The pendant lamp can be individually set in total height during assembly. The three E27 sockets can be operated with replaceable LEDs (retrofits).
