

Knapstein

ELIN

Oberfläche

- níquel
- negro
- bronce

Technical details

País de origen	 Alemania
Fabricante	Knapstein
año	2024
Materiales	Acryl, Metall
ajuste de altura	regulable en altura
Regulación de intensidad	control por movimientos
Potencia en vatios	110 W
LED #	inclusive
Índice de reproducción cromática (CRI / Ra)	>90
Flujo luminoso en lm	11.232
Temperatura de color en kelvin	2.200-3.000
Índice de protección / Protección IP	IP20
Contenido del paquete	LED
reemplazo de la bombilla:	en el fabricante / en la fabrica
altura total	70 - 170 cm
Dimensions	H 5,5 cm B 35 cm L 95 cm

Descripción

The Knapstein ELIN pendant lamp emits its light upwards and downwards at the same time. The uplight and downlight can be switched and dimmed separately using gesture control. The light colour can be adjusted separately for the uplight and downlight to a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The height of the lamp can be adjusted within a range of approx. 100 cm by pulling or lifting the lamp profile. The sensor area for gesture control is located in the centre of the lamp. The lamp is switched on or off with a swiping hand movement in the sensor area. To change the light intensity, the hand is held longer in the sensor area. The desired light colour can then be set by holding the hand in the sensor area for a longer period again. The ceiling canopy of the Knapstein ELIN LED pendant lamp has a magnetic holder, so no screw connections are visible. There are several surfaces available.
