

Holtkötter

Avior

Version

- S
- M
- L

Oberfläche

- latón
- platino
- bronce
- negro
- plata

Technical details

País de origen	 Alemania
Fabricante	Holtkötter
Diseñador	Holtkötter
año	2024
Materiales	Metall
ajuste de altura	regulable en altura
Regulación de intensidad	control por movimientos
LED #	inclusive
Índice de reproducción cromática (CRI / Ra)	>90
Temperatura de color en kelvin	2.200 - 2.850
Índice de protección / Protección IP	IP20
Contenido del paquete	LED
dosel	36,5 cm x 7,5 cm x 5,2 cm
reemplazo de la bombilla:	en el sitio mismo
Dimensions	H 40 - 160 cm

Descripción

The height of the Holtkötter Avior pendant lamp can be adjusted by pushing it up and pulling it down. The overall height can therefore be adjusted between 40 cm and 160 cm. A roll-up mechanism ensures that the cables disappear into the canopy and that the light always maintains a horizontal position. The Holtkötter Avior pendant lamp emits light both upwards and downwards. The uplight and downlight can be steplessly switched and dimmed separately using gesture control. To do this, a hand is held in the sensor area of the gesture control below the lamp. When dimming, the light colour of the integrated LED changes to a warmer tone (from 2,850 Kelvin to 2,200 Kelvin) thanks to dim-to-warm technology. The last set light intensity is saved using the memory function and automatically reset the next time the light is switched on. Three profile lengths - 82,5 cm (Avior S), 122,5 cm (Avior M) and 162,5 cm (Avior L) - and five different surfaces - anodised brass, black, matt silver, platinum and bronze - enable unrestricted use in rooms of all kinds.
