| <b>Puissance en Watt</b>                | 5,4 W   |

### Description

The Ingo Maurer YAYAHO Element 14 is a silicone element of the YAYAHO low-voltage lighting system. Included in the delivery is a silicone reflector with a diameter of 9 cm and a height of 6 cm as well as two 100 cm long ropes with counterweights. The silicone reflector is hung with the two ropes with counterweight into the lighting system. This element is both vertically and horizontally movable by the two ropes with counterweight on the tensioning cables of the lighting system. The silicone reflector emits a pleasant, glare-free light and can be easily deformed.
