34

#### matériel

aluminium

#### surface

Dusty Limestone

#### couleur de câble

gris clair

#### longueur de câble

300 cm

#### réglage de la hauteur

hauteur déterminée

#### atténuation

dimmerable sur place

#### base/version

E27

#### Puissance (max. Watt)

70 Watt

#### Dimensions

H 32 cm | Ø 34 cm

### Description

The LIGHTYEARS Mingus P2 is a pendant lamp designed by Cecilie Manz. The lamp has a diameter of 34 cm and a height of 32 cm. It looks modern due to its clearly separated areas but it nevertheless forms an organic entity adapting to its surrounding. The surface is influenced by the colours in the surrounding area and this creates an extraordinary image especially when combining several Mingus lamps. The light is mainly direct and warm radiated downwards. However due to a little mount out of acrylic through which the cable is led the light is also radiated discreetly upwards making the cable shine a little bit. This Mingus P2 by LIGHTYEARS is in dusty limestone. It has a suspension of 300 cm.
