

Vibia

Set 7750

Oberfläche

- mink mat
- blanc mat

Technical details

Pays de fabrication	 Espagne
Fabricant	Vibia
Créateur	Xuclà
Indice de protection / Indice IP	IP20
Contenu de la livraison	Ampoule
Profondeur en cm	10
matériel	aluminium, polycarbonate, verre borosilicate
atténuation	0-10V dimmable
Puissance en Watt	9 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	1.269
La température de couleur en Kelvin	2.700 extra blanc chaud
Dimensions	H 21 cm B 18 cm

Description

The Vibia Set 7750 is a single-lamp LED wall light with a diffuser made of borosilicate glass. At the bottom of the lamp a 9 watt LED is housed, which radiates its light upwards. The top of the Set 7750 is rotated 360°. So the light of the lower part can always derive differently and there a play of light and shadow is generated.

The Set 7750 was designed by Xuclà and it is available by Vibia in the surfaces in white matt and mink matt. The wall lamp is on site dimmable with 0-10 Volt. As standard, this lamp has a colour temperature of 2,700 Kelvin extra warm white; on request, it is also available with 3,000 Kelvin warm white or 4,000 Kelvin white. As a single lamp it can be use due to its small size and its simple design virtually anywhere. The lamp can also be used in combination with other Set lights.
