## **Description**

The Ingo Maurer YAYAHO Element 3 light is part of the YAYAHO lighting system. The element 3 is hooked over two mounting hooks into the cable system. The metal bracket to which the reflector of the lamp is attached, is horizontally movable on the ropes. The bulb is surrounded by a natural-coloured cover. The lamp head is swivelable.

The lamp is operated by a transformer. This is equipped with an electronic power monitoring Watch Tronic and a thermal fuse from the manufacturer Ingo Maurer.
