Description

The Stchu-Moon 08 can be considered both as a wall as well as a floor lamp, because the disc suspended to the wall is illuminated by a stativ with a lamp. The disc is made of aluminum and has an irregularly structured surface. The lamp is available with the shade colours copper, silver leaf and gold leaf for the disc.

The aluminum shade of Stchu-Moon 08 is offered in two sizes: with a diameter of 80 cm or 120 cm. The stand has a black anvil of iron and a lamp rod as well as a reflector head which is mounted on a movable arm. The height of the stativ is in total at 135 cm. LED retrofit lamps can be used as illuminants. A built in dimmer allows a change in light intensity.
