## Description

The Serien Lighting App wall lamp has a reduced square shape. For the front surface, different versions are offered as illuminant cover: with ribbed surface, opal white, honeycomb, pyramid, grey, fluorescent green, ice crystal or mirrored surface. On request, the wall lamp is also available with an individual print on the front. The choice of front surface has no influence on the room light itself, as the front surface is opaque. Whether in a row, graphic or deliberately free arrangement - App is suitable for multifunctional use.

The light is emitted symmetrically upwards and downwards by the App wall lamp. Part of the light is also diffused to the side. The light source is an integrated LED, which is available with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. The lamp can be dimmed on site with a trailing edge and / or leading edge phase dimmer. On request, the App wall light is also available as a DALI dimmable version. This requires a 5-wire mains cable.
