Description

The Nike Catellani & Smith is an LED table lamp. It consists of a rough ceramic chalk statue of a headless angel who is supposed to represent the Greek goddess of victory Nike. The statue is held in white. This lamp has a flexible light arm with a lamp shade. This can be stretched and bend at will. So a variable height of the table lamp is made up to 55 cm. The headless angel stands on a base of stone, this has the dimensions 15 x 12 cm.

An LED with an output of 1 watt and a colour temperature of 2,700 Kelvin extra warm white is integrated as illuminant. This LED is interchangeable and can be regulated via an integrated dimmer on the supply line. The last brightness level set is saved by memory function and automatically selected the next time this lamp is switched on.
