

Licht im Raum

Ocular Spot 2 Series 100 Zoom

Oberfläche

- nickelé satiné
- poli

Technical details

Pays de fabrication	Allemagne
fabricant	Licht im Raum
concepteur	Licht im Raum
année	2012
protection	IP20
Contenu de la livraison	LED
matériel	acier Inoxydable
angle du faisceau	50 - 70 degrés
atténuation	dimmable sur place
LED	y compris
La température de couleur en Kelvin	2.700 extra blanc chaud
Diamètre de la lentille	100 mm
Les performances du système	2 x 17,1 Watt
Flux lumineux total en LM	4.708
Dimensions	H 20 cm L 24 cm

Description

The Licht im Raum Ocular Spot 2 Series 100 Zoom is the more powerful of two double-lamp radiators of this collection. The lamp has a rotating and tilting joint, with which the two light heads can be moved as desired. The lenses are swivelable and can be zoomed in or out. The radiation angle can thus be varied between 50 and 70 degrees. With a smaller value for the beam angle, the light cone becomes narrower; with a larger value, it becomes wider. The diameter of the lenses is 100 mm which makes them larger than the lenses from the ordinary Ocular Spot group.

The spotlight can also be used as a wall spotlight. The light is made of stainless steel and is offered in the two surfaces matt nickel-plated and polished.
