### Description

The Vibia Mayfair 5515 is a floor lamp with an opaque steel shade. In addition to this lamp, the Mayfair 5510 from the series is also available with a translucent shade made of methacrylate. With the Mayfair 5515, most of the light is emitted directly downwards, while a small part is emitted upwards, reflected from the wall or ceiling. The floor lamp is available in the following surfaces: gold satin matt, graphite grey matt lacquered, white matt lacquered and copper. The lamp is switched on and off via an optical sensor on the underside of the shade. The light can also be dimmed by touching the sensor for a longer period of time.
