

Vibia

Guise 2260

Technical details

Pays de fabrication	 Espagne
fabricant	Vibia
concepteur	Stefan Diez
année	2018
protection	IP20
Contenu de la livraison	LED
Profondeur en cm	3
Diamètre en cm	54
matériel	aluminium, borosilicate
longueur de câble	300 cm
atténuation	capteur gradateur
Puissance en Watt	10 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	445
La température de couleur en Kelvin	3.000 blanc chaud
Dimensions	Ø 54 cm

Description

With the Vibia Guise, Stefan Diez has discovered a new potential use for LED technology in contact with matter: The light emanates from the piece of glass, while the source remains invisible. With this approach Guise achieves a magical effect and at the same time is fully functional. Because of the transparency of the glass when switched off, the lamp almost disappears. When switched on, it expresses a luminous and almost magnetic presence.

The wall lamp version with a different formal expression features a glass disc that gives off a perimeter glow where the LED light source is also hidden. When turned off, it becomes fused with its background, when on, it evokes a solar eclipse. Vibia presents a wall lamp that integrates the LED light with the glass and making it pass through in such a way that it becomes invisible and then allowing it to appear out of nowhere. The Guise 2660 has a diameter of 54 cm.
