

Marset

Nenufar 2 white

Technical details

Pays de fabrication	 Espagne
Fabricant	Marset
Créateur	Joan Gaspar
année	2013
Indice de protection / Indice IP	IP20
Contenu de la livraison	LED
matériel	Fer, polycarbonate
réglage de la hauteur	hauteur déterminée
Puissance en Watt	5,4 W
LED	y compris
La température de couleur en Kelvin	2.700 extra blanc chaud
canopée Dimensions	18 cm, hauteur 4 cm
Version	blanc
Diamètre de l'ombre	17 cm
Les performances du système	2 x 9 Watt
Flux lumineux total en LM	1.400
répartition de la lumière	directement
hauteur totale	347 cm
Dimensions	H 47 cm B 22 cm L 25 cm

Description

The outcome of the designer's arduous quest to create a fixture that seems to float on air, the Marset Nenufar 2 takes its name and its delicate shape from the water lily. This lamp consists of a chromium-plated rod with two black or white polycarbonate shades. Each disc-shaped shade is distinct, separated from the other in a way that the downward beams do not intersect or interfere, but combine for a uniform, direct beam. The result is an item that is midway between decorative and architectural, and can be applied to both purposes with ease. Sober and well finished, the Nenufar utilizes top-quality materials and the power of LED to radiate an exquisite luminosity and create warm, welcoming atmospheres.

This lamp is in its element installed in a series - creating areas lit at different heights and with various combinations of discs - or on its own as a surprising, well balanced and subdued centerpiece. The lamp is on offer with one, two, or three black discs supported by a polished chrome rod. This lamp is also available in pre-set configurations of 3, 5, 7, and 9 units, to ease installation. On request, there are offered surface-mounted and recessed canopies with which the single lamps can be combined with each other.
