Description

The Arturo Alvarez Mytilus MY06 is a wall lamp with a shade made of lacquered stainless steel-metal mesh. This material is particularly durable and is shaped and finished by hand for the lamp. The lamp is 43 cm high and 60 cm wide. Its depth is 16 cm. A spherical glass diffuser ensures uniform glare control and light distribution in all directions. The integrated LED has a colour temperature of 2,700 Kelvin extra warm white. The Mytilus MY06 is on site dimmable with a trailing edge phase dimmer. On request, the lamp is also available with a colour temperature of 3,000 Kelvin warm white. A DALI dimmable version is also available on request.
