Description

This Serien Lighting Reflex2 Ceiling S450 is a ceiling lamp with a rounded frame structure made of aluminum in black. The light is emitted from the lamp onto a prismatic reflector and distributed from there into the room absolutely glare-free. The reflector is available in matt white, gold, silver or white. The selected colour of the reflector creates a different lighting mood in each case.

Thanks to the dim to warm function, the Reflex2 Ceiling S450 imitates the pleasant dimming behaviour of classic incandescent lamps. When dimmed down, the light not only becomes darker but also changes its colour temperature from 2,200 Kelvin extra warm white to 3,000 Kelvin warm white. On request, the lamp is also available with 2,700 Kelvin extra warm white, 3,000 Kelvin warm white, DALI, 1-10 Volt or with Casambi module.
