Curling Suspension Tube Acryl clear / conical opal M

Farbtemperatur in Kelvin

- Dim to warm
- 2.700 extra blanc chaud
- 3.000 blanc chaud

Technical details

Pays de fabrication	 Allemagne
Fabricant	Serien Lighting
Créateur	Jean-Marc da Costa und Manfred Wolf
année	2020
Indice de protection / Indice IP	IP20
Contenu de la livraison matériel	LED
réglage de la hauteur	acier, aluminium, verre acrylique
atténuation	hauteur déterminée
Puissance en Watt	gradable avec variateur à coupure de phase et à commande de phase
LED	27 W
Indice de rendu des couleurs	y compris
canopée Dimensions	>97
Diamètre de l'ombre	8 cm
Hauteur de Abat	22 cm
remplacement des ampoules :	9 cm
hauteur totale	sur le site meme
	110 cm

Description

The Serien Lighting Curling Suspension Tube Acryl clear / conical opal M can be individually regulated in its total height when installed. The total height is 110 cm including the steel tube. The pendant lamp is supplied with a shade made of clear acrylic glass. A conical reflector is integrated in the shade, which directs the light downwards and softly diffuses it all around.

This Curling Suspension by Serien Lighting has a lamp shade with a diameter of 22 cm and a height of 9 cm. It is offered in three versions: with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. When dimmed, the version with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is often perceived as pleasant. When dimmed down, the light not only becomes darker but also changes its colour temperature. The colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white when dimmed. In addition to this pendant lamp, Serien Lighting also offers the Curling Suspension Tube Acryl clear / conical opal S with a shade diameter of 16 cm.
