Description

The Gio Nera 10mm is a rectangular shaped LED pendant lamp. It has a glass thickness of 10 mm. The lamp is covered with a relief through which the light is also emitted laterally. The light is always glare-free. Therefore this pendant lamp is ideal for table lighting.

The Nera is available with a length of 78 cm or 110 cm. Its glass is offered in clear and optiwhite. The ropes of the pendant lamp can be shortened if necessary. Four exchangeable LEDs are integrated as illuminants, which can be dimmed on site with a trailing edge phase dimmer. On request, the lamp is also offered DALI or dimmable with Casambi module. The version with Casambi module can be dimmed by Smartphone / Tablet via Bluetooth. The pendant lamp is also available with 19 mm glass thickness.
