

Knapstein

SARA-40

Oberfläche

- nickel
- noir
- bronze

Technical details

Pays de fabrication	 Allemagne
Fabricant	Knapstein
Créateur	Knapstein
année	2020
Indice de protection / Indice IP	IP20
Contenu de la livraison	LED
Diamètre en cm	40
matériel	laiton
réglage de la hauteur	réglable en hauteur
atténuation	controle gestuel
Puissance en Watt	46 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	5.000
La température de couleur en Kelvin	2.200 - 3.000 réglable
canopée Dimensions	30 cm
remplacement des ampoules :	chez le fabricant / a l'usine
hauteur totale	70 - 170 cm
Dimensions	H 5,5 cm Ø 40 cm

Description

The Knapstein SARA-40 is a ring-shaped pendant lamp with a diameter of 40 cm. By pulling or lifting the lamp, the total height of the lamp can be continuously adjusted between 70 cm and 170 cm. The lamp can also be suspended at an angle. The light is emitted by this lamp simultaneously upwards and downwards. Its uplight and downlight can be switched separately by gesture control and can also be dimmed continuously. The light colour for the uplight and downlight can be adjusted to a warmer tone using gesture control (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved via the memory function and are automatically reset the next time the light is switched on.

The lamp can be switched on or off with a wiping movement of the hand within the sensor range. To dim the lamp continuously, hold your hand in the sensor area for a longer period of time. When the dimming process is complete, the lamp flickers briefly. To set the desired light colour, the hand is then held in the sensor range again for a longer period of time. The SARA-40 is available in matt nickel, black and bronze effect. No visible screws are visible on the ceiling canopy, as the canopy is held by magnets. A pendant lamp with a diameter of 60 cm is also available from the series. On request, the SARA is also offered in other lengths or surfaces.
