Description

The Catellani & Smith Syphasfera Set 4 consists of four complete outdoor floor lamps ready for connection with all necessary accessories. The four lamps can be connected to each other with the Catellani & Smith Quick Connectors System and plugged together. Only a single power connection is required for installation. All necessary plug connections are included. The set includes:

- One lamp with a height of 60 cm
- one lamp with a height of 75 cm
- one lamp with a height of 105 cm
- one lamp with a height of 135 cm
- an extension cable with a length of 500 cm
- a driver necessary for lamp operation

All lamps have a spherical glass with a diameter of 8 cm. The glass is available in clear or irregular structured. With the clear glass the light is evenly distributed in all directions. With the irregular glass, light reflections are created on the glass when switched on. Each lamp can be fixed up to 25 cm into the ground with its ground spike. The heights of the lamps (60 cm to 135 cm) are indicated without ground spike.

The Syphasfera outdoor light has the protection class IP44 and is therefore protected against splash water on all sides and solid foreign bodies with a diameter of 1 mm or more. Each light rod is dust-tight with protection class IP65 and protected against strong jets of water from any angle. Driver and extension cables are protected against temporary submersion with IP67 protection. From Syphasfera, further sets of three, five or nine complete lamps are available. In addition, a complete single lamp with a height of 60 cm, 75 cm, 105 cm or 135 cm is also offered.
