Description

The Holtkötter Aura P2 Glass is a pendant lamp consisting of two lamps mounted on a rectangular canopy. Each pendant can be adjusted individually by simply pushing it upwards or pulling it downwards to a maximum total height of 160 cm. An integrated roll-up mechanism ensures that the cables disappear into the canopy and the lamp always remains horizontal at the desired height.

The Aura P2 Glass pendant lamp has two hand-blown glasses. Each glass is manufactured using traditional craftsmanship and is therefore unique. The glasses are available in Opal matt pleated, amber, cognac, smoke grey and opal matt. The pendant lamp is also offered in anodised brass, black, platinum and matt aluminum. The canopy has the matching surface in each case to the lamp. The light is emitted through the glasses directly downwards and sideways into the room. Depending on the glass selected, the light emitted laterally is coloured.

The Aura P2 Glass can be dimmed on site with a trailing edge phase dimmer. When dimming, the Dim-to-warm technology used changes the light colour of the integrated LEDs to a warmer tone (from 2,900 Kelvin warm white to 1,800 Kelvin extra warm white). A memory function saves the luminous intensity last set and automatically selects it the next time the light is switched on. The Aura P2 with metal reflectors is also available from the series. There are also offered pendant lamps with three lamps mounted on a canopy.
