Description

The Bomma Soap Mini pendant lamp is made of mouth-blown crystal glass and is available here as a single pendant lamp. For the Soap collection, the designer Ota Svoboda was inspired by the characteristic features of soap bubbles: iridescent colour gradients, transparency and irregular shapes. During the handcrafted production, the lamps receive a metal coating that makes them glitter, especially when they are switched on. Each glass is mouth-blown without a mould and is therefore unique, so that shape, size and colour intensity can vary.

The Soap Mini is available in the glass colours gold, silver, blue, matt and clear. The suspension is available in anthracite or brushed gold. The pendant lamp is offered with a transparent cable with a maximum length of 250 cm as standard. Special lengths for the cable are also available on request. A replaceable LED retrofit bulb is recommended as the light source for the G4 socket. The Soap Mini is also offered as a multiple pendant lamp in different numbers and with different canopies.
