

# Steng

## Brigg P1 Power Tools

### Oberfläche

- aluminium
- noir
- blanc

### Farbtemperatur in Kelvin

- Tunable White
- 2.700 extra blanc chaud
- 3.000 blanc chaud

## Technical details

<b>Pays de fabrication</b>	 Allemagne
<b>Fabricant</b>	Steng
<b>Créateur</b>	Peter Steng
<b>Créateur 2</b>	Andreas Steng
<b>Indice de protection / Indice IP</b>	IP20
<b>Contenu de la livraison</b>	LED
<b>Profondeur en cm</b>	20
<b>matériel</b>	aluminium
<b>atténuation</b>	avec module Casambi
<b>Puissance en Watt</b>	68 W
<b>LED</b>	y compris
<b>Indice de rendu des couleurs</b>	>90
<b>Flux lumineux en lm</b>	10.150
<b>Dimensions</b>	H 6 cm   B 30 cm

## Description

The Steng Brigg P1 Power Tools is a wall lamp with a width of 30 cm and a height of 6 cm. Its depth is 20 cm. This lamp has a particularly large light emission surface in relation to its size and a particularly powerful LED. The light is emitted from the lamp asymmetrically upwards and thus also into the room. Part of the light is emitted onto the wall behind the lamp and reflected from there into the room. High-quality reflector technology ensures glare-free light emission.

The Brigg P1 Power Tools is available in the surfaces aluminum, white matt and black matt. All surfaces have a fine structure. Other RAL colours are also available on request. The wall lamp is operated with an integrated LED, which is characterised by a very good colour rendering with a high colour rendering index of Ra >90 or 90. The lamp can be switched and dimmed with an integrated Casambi module by smartphone, tablet or a wall switch element with the Casambi app via Bluetooth. Casambi technology also offers the option of grouping the lamp with other suitable lamps or switching the lamp at specific times via a timer.

The Brigg P1 Power Tools is available with three colour temperatures: with a colour temperature of 2,700 Kelvin extra warm white, with 3,000 Kelvin warm white or with Tunable White technology. With Tunable White technology, the light can be adjusted in colour temperature from incandescent warm to cool white (from 2,700 Kelvin extra warm white to 6,500 Kelvin cool white). The two lamps with 2,700 or 3,000 Kelvin each have an LED with an output of 68 watts, the lamp with Tunable White technology has an output of 56 watts. On request, the wall light is also available with 1-10 volt and DALI dimmable.

In addition to this lamp, Steng also offers the Long Brigg 1 Pro and Long Brigg 1 in the same size. These have a different wattage and a smaller light emission area.
