### Description

The Vibia Rhythm 2141 is a pendant lamp with twenty vertically aligned 47 cm long upright rods. This lamp has a surface-mounted canopy.

The Rhythm 2141 consists of freely movable polycarbonate rods that carry LEDs. Each of these rods revolves around an axis and can be positioned at any desired angle. In this way, an infinite number of design forms can be created: from strictly geometric to soft waves to wildly chaotic. This Rhythm 2141 is in the colour cream white. The lamp measures 47 x 108 cm. It can be suspended up to a maximum of 200 cm. Twenty LEDs are included, the power is 2.9 watts per rod. These are electronically dimmable from 1-10V.
