### Description

This canopy is an original spare part from the manufacturer Foscarini and is suitable for luminaires in the Spokes series. The round ceiling canopy made of aluminium is supplied with a control gear and is available as a non-dimmable version as well as a DALI-dimmable and MyLight version.

With MyLight, you can control the light and adjust it to your personal requirements. With the app, Foscarini luminaires equipped with a MyLight module can be controlled via a Bluetooth interface using a smartphone or tablet. This makes light unique and personalised.
