

Knapstein

MEGGI

Oberfläche

- nickel
- bronze

Technical details

Pays de fabrication	 Allemagne
Fabricant	Knapstein
année	2024
profondeur	7
diamètre	30
Matériel	Acryl, Metall
gradabilité	controle gestuel
Puissance en watts	17 W
LED #	inclus
Indice de rendu des couleurs (IRC / Ra)	>90
Flux lumineux en lm	1904
Température de couleur en kelvins	2.200 - 3.500
Indice de protection / Indice IP	IP20
Contenu de la livraison	LED
remplacement des ampoules :	chez le fabricant / a l'usine
Dimensions	Ø 30 cm

Description

The Knapstein MEGGI is equipped with a sensor dimmer that can be used to switch the lamp, dim it continuously and change the light colour. This sensor is located in the front part of the reflector. Simply swipe the sensor to switch the lamp on or off. The light colour of the lamp can be adjusted to a warmer tone (from a colour temperature of 3,500 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The tilt and turn joint on the reflector allows the light to be aligned and positioned as required. The Knapstein MEGGI emits indirect light, has a diameter of 30 cm and is 7 cm deep. The rotatable and tiltable reflector of this wall light has a diameter of 15 cm. The Knapstein MEGGI is available in several surfaces.
