

Vibia

Halo Circular 2331

Technical details

Land van fabricage	 Spanje
fabrikant	Vibia
ontwerper	Martín Azúa
bescherming	IP20
Omvang van de levering	LED
materiaal	polymethylmethacrylaat, staal
oppervlak	wit
hoogteverstelling	hoogte bepaalbaar
dimmen	1-10V dimbaar
LED	inclusief
Kleurweergave-index	>80
Lichtstroom in lm	3.453
Kleurtemperatuur in Kelvin	3.000 warm wit
luifel Dimensions	31 cm
prestaties van het systeem	2 x 23 Watt
totale hoogte	250 cm
Dimensions	B 80 cm L 89 cm

Omschrijving

The Vibia Halo Circular 2331 is an idea of the designer Martín Azúa who designed the lamp with two circular elements made of matt white PMMA. The two-lamp pendant lamp has modern LED technology. It is height determinable and can be hung up to 250 cm whereby the level of each individual lamp element and if to hang it horizontally or diagonally, can be decided separately.

Two efficient LEDs are included. These LEDs are dimmable electronic 1-10V. On request a DALI as well as a with Casambi module dimmable version is available. With a Casambi module, it is possible to operate the lamp via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the light on at specific times via a timer. The light output of the Halo Circular 2331 is gentle and is referred to by Vibia as "almost magical light".
