dimmen	dimbaar op locatie met fase-hoek-dimmer
Voet / fitting	G9
Vermogen (max. Watt)	60 Watt
Versie	halogeen
Schaduw diameter	12 cm
Dimensions	H 11 cm

Omschrijving

The Serien Lighting Reef Wall halogen can be mounted as uplight or as downlight. It is available in the surfaces polished aluminum or brushed aluminum for wall mounting. The maximum 60 watt halogen lamp can be dimmed on site. A new lamp shade holder with bayonet lock, which is combined with a light-guiding optics, enables tool-free, quick installation of the lampscreen.

The distinctive light shades of this lighting-family consist of innovative ceramic foam, the structure of which is strongly reminiscent of coral. They are durable, dishwasher safe and distribute the scattered light in this perfectly gentle Bone China shade. The cylindrical body is open on one side - then the lights of this family shine strong and brilliant, but completely glare-free.

In addition to the Reef Wall Halogen, also an LED version of the lamp is on offer.
