Technical details

Land van herkomst	 Italië
Fabrikant	Luceplan
Ontwerper	Alberto Meda, Paolo Rizzatto
jaar	1985
Beschermingsklasse / IP-bescherming	IP20
Leveringsomvang	Leuchtmiddel/Bulb
materiaal	aluminium, nylon
Voet / fitting	GY6.35
schakelbaarheid	op armatuur hoofd
Vermogen (max. Watt)	10 Watt
armlengte	45 + 45 cm
lampkop massa	10 cm
lichtverdeling	direct

Omschrijving

The Luceplan Berenice Parete is a wall lamp whose light arms are traversable at every angle. Also a smaller light with shorter light arms is available, the Berenice Parete Piccola.

The reflectors of the lamp are offered in different colours: the reflectors in sage green, yellow, satin white and rose are made of glass, the reflectors in aluminum, brass and black are made of metal. By moving the light arms, the light can be emitted directly to the desired direction, in the variants with glass reflectors a part of the light is emitted by the reflector into the room. With an on / off switch on the head, the wall lamp can be operated. The light can be used with halogen lamps or LEDs. In 1985 Paolo Rizzatto & Alberto Meda designed the lamp.
