### Omschrijving

The Catellani & Smith Atman is an oval table lamp made of crystal glass. It is 8 cm high and has a length of 16 cm. Due to the integrated lens, the light is bundled when switched on, so that a light effect is created above and below the lamp. This lamp is operated with an extra warm white LED with a colour temperature of 2,700 Kelvin. In addition, the Atman has a dimmer on the supply line. With a short press of the dimmer, the light is switched. With a longer press, the light can be dimmed. Thanks to the memory function, the last brightness level set is automatically selected the next time the light is switched on.
