Omschrijving

The Anglepoise Original 1227 Mini Lamp with Desk Insert is installed into the table. This table lamp can be installed with the supplied cable guide. The movable articulated arm can be re-aligned again and again using tension spring technology. In addition, the lamp head can be rotated and swivelled. The proven tension spring technology, which is also used for this table lamp, was developed by industrial designer George Carwardine. Thanks to this constant tension spring technology, the articulated arm of the recessed light remains in any set position.

The Original 1227 Mini Lamp with Desk Insert is available in linen white, jet black and dove grey. The lamp shade, the lamp arm and the mounting plate are all in the selected surface. The lampshade is made of steel and glossy lacquered in every version. The 180 cm long cable has an on/off switch. LED retrofit light sources or compact fluorescent lamps can be used as light sources. A table base in the matching surface is included in the scope of delivery.
