| luisel Dimensions | 16 cm |
| Schaduw diameter | 90 cm |
| prestaties van het systeem | 3 x 5,6 Watt |
| totale hoogte | 350 cm |
| Dimensions | H 103 cm |

Omschrijving

The Vibia Flamingo 1550 is a pendant lamp designed by Antoni Arola, combining aesthetics with functionality, radiant light and a touch of poetics. It emits ambient light via its transparent shades and at the same time a punctual light via its LEDs. The lamp head above the shades illuminates the top shade for additional ceiling illumination, which reflects most of the light to the ceiling. The two light heads with LEDs are offered in these versions: white matt lacquered, graphite-grey matt lacquered, gold satin matt and copper glossy. The canopy is always in the matching colour to the light heads. The pendant lamp is height-determinable and can be dimmed on site. On request there are also offered versions that can be dimmed via smartphone, or DALI dimmable versions. With a Casambi module, it is possible to operate the lamp via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the light on at specific times via a timer.
