Omschrijving

The Vibia Tempo 5760 is a wall lamp with a swivelling horizontal light rod. The diffuser is made of hand-blown glass in diamond form and can be adjusted in height with a tensioning cable. The lamp is connected with a plug via cable and regulated with an integrated touch dimmer on the cable. The lamps in this collection were inspired by the interaction between light transmittance or opacity and transparency. LEDs with a colour temperature of 2,700 Kelvin warm white are integrated as illuminants. The surfaces available are terracotta-red, graphite-grey, cream-white and green. All surfaces are matt lacquered. On request, this light is also available with connection via wall outlet (Tempo 5761). In addition, versions with a colour temperature of 3,000 Kelvin warm white or 4,000 Kelvin white are also available on request.
