Omschrijving

The Vibia Tempo 5764 wall lamp has a light rod fixed to the wall and an oval shade made of opal glass. The lamp shade is made of mouth-blown glass. The lamp is connected via a plug and has an integrated push button dimmer on the cable. The lamps of this series are inspired by the play with different degrees of luminance and by the interaction between translucency or opacity and transparency. An LED with a colour temperature of 2,700 Kelvin extra warm white is included as a light source. The light is available in cream-white, terracotta-red, green and graphite-grey. All surfaces are matt lacquered. On request, this wall lamp is also available with connection via wall outlet (Tempo 5765). Versions with a colour temperature of 3,000 Kelvin warm white or 4,000 Kelvin white are also available on request.
