Omschrijving

The Marset Mercer M table lamp emits light upwards, downwards and to the sides at the same time. The opal diffuser on the top side reduces glare upwards. The lamp body consists of a hand-blown, transparent glass cylinder with a cotton textile shade in the upper half. The shade is available in pearl white or with natural cotton ribbon. The Mercer M is 41 cm high and has a shade diameter of 29 cm. It can be operated with compact fluorescent lamps. A dimmer is integrated on the supply line.
