### Omschrijving

The Vistosi Bolle SP G pendant lamp has a lamp shade with a diameter of 25 cm and a height of 24 cm. The shade is made of mouth-blown crystal glass. During processing, air bubbles are enclosed in the glass to give the lamp a special texture. This texture multiplies the reflections on the surface. The light is emitted by the lamp both directly downwards and into the room. The Bolle SP G is available in crystal transparent and white. The metal parts of both versions are satin nickel-plated. Halogen E27 and LED versions are offered for this pendant lamp. The halogen E27 version can be operated with halogen lamps or LED retrofits. The LED version has an integrated LED module with a colour temperature of 2,700 Kelvin extra warm white.
